EARTH-TECH ENERGY SYSTEMS ET-3 HYBRID WIND TURBINE

Earth-Tech Energy Systems is proud to be marketing the first complete high voltage, high efficiency hybrid (wind/solar) in the US to offer net metering for residential homes. Earth-Tech Energy Systems has designed a system using state of the art components which offer the highest efficiency rating on the market. Earth-Tech Energy Systems costs 40 percent less than traditional solar only energy systems yet supplies more power and more consistent power than solar or wind only systems. Our three phase generator produces THREE TIMES more power meaning three times more savings for our customers! Even better our three phase turbines have no moving parts to worry about so Earth-Tech systems are virtually maintenance free. We are so confident in the quality of our systems, our warranty is double the length of any other residential turbine on the market! Visit our web site for more information on all renewable energy products offered by us at www.EarthTechEnergySystems.com.

Features	Earth-Tech ET-3	Sky Stream 3.7
Warranty	10 year	5 year
Output	Three phase	Single Phase
Weight including inverter	273 lbs	170 lbs
Start up speed	5.5 mph	8 mph
Rated speed	18 mph	29 mph
Rated Output	3 KW+	2.4 KW
Able to exceed output ratings	Yes	No
Back up power during outages	Yes	No
Able to add solar (hybrid)	Yes	No
Service requirements	Every 5 years	Annual
Tower lock down	Yes	No
Actual March Usage*	1400 KW	355 KW
Payback (12 mph wind speed)	Less than 7 years	Over 10 years

* Usage from Skystreamenergy.com website. Sky Stream turbine located in Springdale AR compared to an Earth-Tech Energy system located in Shawnee, OK.

Shop and Compare, no turbine on the market performs like an Earth-Tech for residential use. The ONLY system to claim *The Turbine is Paid for BEFORE the Warranty Expires!*

Hybrid Wind/Solar Systems • Solar Hot Water • Solar HVAC
